

# Eyelash Extension Remover Cream – Instructions for Use

## Product Description

Our Eyelash Extension Remover Cream is designed to gently and effectively dissolve lash adhesive, allowing for safe and easy removal of eyelash extensions. The creamy texture prevents running into the eyes, making it suitable for professional lash technicians.

## Ingredients

Propylene Carbonate, Glycerin, Mineral Oil, Aloe Vera Extract, Fragrance

## Safety Warnings

- For Professional Use Only – Not intended for self-application.
- Patch Test Recommended – Always test on a small area before full use to check for potential allergic reactions.
- Avoid Eye Contact – If the product gets into the eyes, rinse thoroughly with water and seek medical attention if irritation persists.
- Keep Out of Reach of Children – Store in a cool, dry place away from sunlight and heat sources.
- Do Not Use on Broken or Irritated Skin.

## Directions for Use

1. Ensure the client's eyes are fully closed throughout the procedure.
2. Apply a small amount of remover cream onto the base of the lash extensions using a micro brush or applicator.
3. Allow the product to sit for 3–5 minutes to dissolve the adhesive.
4. Gently slide the extensions off using tweezers or a lash brush.
5. Remove any residue with a clean cotton pad or lint-free applicator.
6. Rinse the natural lashes with lash shampoo or clean water to ensure no product remains.

## Storage

Store tightly sealed at room temperature (15–25°C). Shelf life: 12 months unopened, 6 months after opening.
